

How to connect your iPad to a wireless network

1. Tap the settings app.
2. Select Wi-Fi.
3. Make sure the slider is switched on.
4. Your iPad should now automatically start to search for nearby networks. When your network appears on the list, select it.
5. You will now need to enter your wifi password. You can usually find this on the back of your router unless you've changed it. Remember your password is case sensitive.
6. Tap join you will now be connected to the Internet.
